IV. MONTHLY REPORTS

A. Chairman's Report

Chair Yamasaki stated the legislative committee has been extremely busy as well the stadium manager and staff, taking some of these bills all the way to tomorrow, (the last day). He especially wanted to thank DAGS for working and assisting the stadium as well. The details will be covered during the Legislative Session of the agenda.

Chair announced that today is Diana Ho's last official board meeting. She will be retiring effective May 1, 2019. On behalf of the board he thanked her for all of her help and service and said it's hard to imagine the board functioning without her diligence and support. Diana extended her appreciation to the Board, as well as to Manager Chan and his management team for their kindness and professionalism. On behalf of the staff, Manager Chan expressed appreciation to Diana for her service and for returning for an additional 13 years (after retirement). He said she will be missed and thanked her for all that she has done for the stadium.

Chair said yesterday they received approval to attend (in May) the P3 Conference for Stadium and Convention Developers. This is in line with the movement of the direction/support which the Legislature has been taken to support a P3 venture for the redevelopment of the stadium. We want to make sure we are getting all the information appropriately. Those attending will include: DAGS, HCDA Director, some of the stadium operational staff, the Chair and Member Iosua. The Chair said a report on this will be provided at the next meeting.

B. Stadium Manager's Report (attached)

Administrative

Manager Chan said, as noted in his report Colette May will be filling Diana's position as stadium secretary, effective May 1. Diana has been gracious enough to work with her (outside of work) to get her acclimated and for a smooth transition. We look forward to Colette coming on board and being a part of our Stadium Ohana.

Also, Manager Chan said he wanted the board to personally meet the following newly-hire staff members: 1) Federico Ader, who is now joining us and filled the vacant plumber's position. 2) Allen Miho, Building Construction/ Maintenance Supervisor 1 filling the position that was vacated by Abe Keliinui, who is now in the Supervisor II position. 3) Cedric Loo who has been the stadium's Chemical Treatment Worker II since September 17, 2007. He has been selected to be the Supervisor of General Services, effective April 22, 2019. He welcomed them all.

1. Updates:

a. Hawaii Administrative Rules

Recommendation will soon be finalized with signatures of our Deputy Attorney General Randall Nishiyama, as well as our Chair. We are pleased that the changes will make it more convenient for our guests to conduct business. Management intends to implement procedures for the upcoming season.

b. Advertising Update

Manager Chan informed the board that they should be able to decide and make an announcement by the end of this month - May 1. We realize how critical it is to get them on board, knowing most advertising budgets are set for the upcoming year.

c. Press Conference "Environmental Review for Stadium Redevelopment Begins with Study of Alternative Sites and Introduction of Consultant - (Attached)

For the board's information several announcements were made during the press conference after last month's meeting:

Site assessment results conclude that the existing site is the best location for the new stadium.

Consultants will begin work on the Master Plan (MP) and the Environmental Impact Study (EIS), which will take anywhere from 12 to 16 months. Consultants will provide updates periodically.

2. Operations

a. Two-Night Monster Truck Event & The Hawaiian Super Cross

Manager Chan said at the end of his report, they will share with the board how the stadium is preparing for this event -- with the expectation of an attendance of over 40,000 guests.

b. P3 Workshop (May 7, 2019, 8:30-3:30 pm. @ HCDA)

Manager Chan said the State Office of Planning and the TOD Council are providing an opportunity for us to attend this workshop, which is being provided by the Urban Land Institute. It is a great opportunity to learn more about the P3 process, as we move forward with a new facility. He thanked those who have already signed up but noted if you haven't that seats are limited. The details were emailed to the board and said if board members need assistance to please contact Diana.

c. Overview of the Monster Truck/Hawaiian SuperCross Events (Deputy Manager, Ryan Andrews)

Deputy Andrews reviewed the attached "Know Before You Go" Guide with the board. He noted that this is similar to what the stadium implemented for the Bruno Mars Concerts -- basically covering everything a guest would need to know prior to attending the event and having a positive experience.

• Traffic & Parking

We've made people aware of our parking fees which is what we charge for all international sporting events and concerts, as well as alternate sites and other transportation options

- Security
We are making them aware of different security measures we take for events that don't normally occur at the stadium (i.e. our bag policies).
- General
Providing information regarding guest code-of-conduct; preparing them to bring cash for some of the concessions that do not accept credit cards; also due to limited ATMs (long lines), they may need to be prepared for additional cash.
- Swap Meet
The swap meet will open in a modified format (similar to UH football games).
- Key Talking Points
Starting next week, we will be pushing the following key messages:
 1. First, we want to emphasize that the traffic will be heavy, and guests should plan to arrive early. Parking gates will be open at 4:00 p.m. for a 7:30 p.m. event; and turnstile gates will open at 5:30 p.m.
 2. There is limited parking at the stadium, and guests need to know the locations of the alternate parking sites. We have made available six alternate sites for the Saturday event and two for the Sunday event. We have a map on our website showing all of the details on alternate sites, shuttle information, pick-up/drop-off hours and locations.
 3. Guests should consider other transportation options, such as taxis, Uber, Lyft as well as charter buses.

Individuals using those services will be provided a drop-off location in the Upper Halawa Lot section 1F, by entering Kalaloe Gate and exiting stadium lot onto Salt Lake Blvd. with no entrance fee required.

There are different groups offering bus charter options. One example is Roberts Hawaii, which has five different pick-up

locations throughout the island of their special Monster Truck Charter Services. We encourage the public to look at these options for their convenience.

4. We encourage ticket holders to stay engaged with our communications, whether on our website, Facebook, twitter, Instagram, etc., which we will constantly be updating.
 5. Lastly regarding security -- we have a one-bag policy and we have restricted items of what can't be brought into the stadium - we are sending out that information, so they do not bring items, such as umbrellas, and have to leave them at the gates.
- How do we communicate?
We are using a variety of communication methods for this event, including the following:
 1. Stadium website
 2. Radio and TV
 3. Social Media Influencers – We are also taking a new direction with a social media organization – realizing that this is the best way to reach the younger population.
 4. Direct email – we have email addresses for everyone who purchased tickets through Ticketmaster

2. Legislative Committee Report Update - Discussion/Action

Member Iosua reviewed the attached report with the board. He stated, from the priority issues that the stadium was tracking, there are basically three bills that are left:

- HB 1586, HD1, SD2 - Regarding the stadium's redevelopment efforts and the requested funding for redevelopment. It was originally under three separate bills but was transferred under this bill recently -- based on the recommendations by the senators and representatives who are pushing this bill on our behalf. At this point the bill is up for hearing - he believes this afternoon. It

has been rolled over several times; and there's no guarantee that it will pass today -- but hoping to get things moving.

Member Iosua thanked DAGS and Stadium Management and everyone who has been working diligently on this bill.

- HB 1259, SD1 - Regarding the CIP for Health & Safety request that we have. Unfortunately, that has been cut down, but said on the bright side, it gives us even more incentive to redevelop the stadium. It is not a surprise because there have been across-the-board departments that have had their funding cut. It is not surprising, although it is disappointing.
- HB 2, HD1, SD1, CD1 - Regarding our operational budget. That has already been approved and signed by the Governor (per Mr. Uchida).
Member Iosua thanked Mr. Uchida for taking the lead on tracking all these bills and making sure the Legislative Committee is up to date on all the bills -- and making sure our testimonies were submitted.

The Chair inquired about the status of the legislative process. Member Iosua said today is the deadline for non-fiscal bills and tomorrow at 11:30 a.m. is the deadline for fiscal bill reports. The Chair said there is still a lot of activity in the next few hours. Several of us will be going down to the Capitol after this meeting. We will have a wrap-up at next month's meeting.

Environmental Review for Stadium Redevelopment Begins with Study of Alternative Sites and Introduction of Consultant

Crawford Architects to lead master planning and environmental review for new stadium and associated development; analysis of alternative sites finds Halawa is best suited

HONOLULU – The Stadium Authority today marked the beginning of the Environmental Impact Statement (EIS) and master planning process for a new proposed stadium and ancillary development by introducing master planning and environmental review consultant Crawford Architects and releasing an Alternative Site Analysis study.

“We’re proud to have such a high caliber consultant like Crawford Architects leading our master planning and EIS process,” said Ross Yamasaki, Chair of the Stadium Authority. “They’re one of the best in the business having had a hand in some of the most high-profile stadium projects and mixed-use developments in the country including work for the Minnesota Vikings, the Green Bay Packers’ Lambeau Field, and Seattle Seahawks’ CenturyLink Field.”

As an initial step in their scope of work, Crawford Architects examined six possible sites on ‘Oahu for a new stadium and scored each on a set of five criteria including potential development costs, economic impact and the availability of infrastructure. The analysis found that the existing Aloha Stadium site in Halawa scored highest while the former Kalaeloa Airport scored lowest.

“Hawaii has an incredible opportunity to create a world-class sports and entertainment venue especially given its unique and enviable location in the middle of the Pacific,” said Stacey Jones, principal and senior partner at Crawford. “In keeping with the state’s desire to be as thorough and thoughtful as possible, we started by analyzing many of the sites that have been previously proposed for a new stadium. In the end, our analysis affirmed what many had intuitively thought – that the existing Aloha Stadium site in Halawa is best suited for this purpose.”

Over the coming weeks, Stadium officials will be providing updates on the EIS process, including stakeholder outreach and public meetings.
