LOTTERY PLAYING CARD DRAW PROCEDURES

STEP 1

Centerplate will draw playing cards to determine the vendor stall selection order. Please have your Vendor ID ready when we come around with our cart. Our CALLER and RECORDER will ask you three questions:

- Do you want a Sunday stall?
- Do you want a Wednesday stall?
- Do you want a Saturday stall?

For each day to which you respond “yes” we will flip a card.

- The number on that card is your placement number (1-400) for that day.
- You do not have to remember your placement number; we will post your VENDOR ID NUMBER on both TVs when your turn is coming up.

STEP 2

Once you see your vendor number on the TV, check in at the desk towards the bottom of the spiral.

- You will be told which line to enter (left lane is Sunday, middle lane is Wednesday, right lane is Saturday)
- Once you enter the pit of the spiral floor, the Pit Boss will tell you when you may enter the selection area.

You will have 60 seconds of exclusivity to pick your stall. After which, the next person will be allowed to enter the selection floor area.

- You do not have to pick your stall before the next person enters, but that next person has an equal right to any available stall on that day’s layout.

STEP 3

When you have selected your stall, you must check out at the table on the far side with THE RECORDER. (Near Box 6)

NOTE: All transactions must be finished on the lottery day. (You may not pay for your stall later) You must process your transaction either at Box 6 or by way of a credit card form on days in which that option is available.
