

**ALOHA STADIUM SWAP MEET & MARKETPLACE
PROCEDURES FOR DAILY LOTTERY**

Revised: October 26, 2022

PROCEDURES FOR VACATION/ABSENTEE LOTTERY

1. All Vendors participating in the lottery must be registered with the Aloha Stadium Swap Meet and Marketplace.
2. Vendors must be in line before 5:00 P.M. in the lottery area. Anyone who misses the cut off may still participate in the Vacation Lottery. They will be serviced in the order they arrived after all vendors in the 5:00P.M. Lottery have picked their stalls.
3. ALL VENDORS PARTICIPATING IN THE LOTTERY MUST HAVE A VALID VENDOR'S ID. Vendors are only allowed to have one (1) Vendor ID number per lottery per Swap Meet day(s).
 - Repeating Vendor numbers will be removed from the pre-count list.
 - An employee of a Vendor may participate in the lottery if, the Primary Vendor is unable to attend. The employee must have a valid Vendor's ID with the registered Primary Vendor number they are representing.
4. The 1st Round of the Vacation Lottery is for vendors who do not have a stall on the day in question. Each day is independent from the others.

Note 1: Owning a permanent stall only disqualifies you from entering the 1st Vacation Lottery on the day you own your permanent stall. (Example: You can have a Wednesday stall AND still participate in the a Sunday Vacation Lottery so long as you do not also own a stall on Sunday)

Note 2: Vendors paying late have lost their stalls for the month, so they are allowed to participate in the 1st Round of the Vacation Lottery. A late paying vendor can buy their complete stall. Doubles can buy back their 2 late stalls. Triples can buy back their 3 late stalls.

5. The 2nd round of the Vacation Lottery will take place immediately after the first round is completed and all Vendors have received their stalls for the day(s) they participated in.
 - The 2nd Round of the Vacation Lottery is for vendors who already have a stall on the day in question (permanent or newly acquired in the 1st Round of the Vacation Lottery) but want another one.

LOTTERY PLAYING CARD DRAW PROCEDURES

STEP 1

Centerplate will draw playing cards to determine the vendor stall selection order. Please have your Vendor ID ready when we come around with our cart. Our CALLER and RECORDER will ask you three questions:

- Do you want a Sunday stall?
- Do you want a Wednesday stall?
- Do you want a Saturday stall?

For each day to which you respond “yes” we will flip a card.

- The number on that card is your placement number (1-400) for that day.
- You do not have to remember your placement number; we will post your VENDOR ID NUMBER on both TVs when your turn is coming up.

STEP 2

Once you see your vendor number on the TV, check in at the desk towards the bottom of the spiral.

- You will be told which line to enter (left lane is Sunday, middle lane is Wednesday, right lane is Saturday)
- Once you enter the pit of the spiral floor, check in with the pit boss. They will tell you when you may enter the selection floor area.

You will have 60 seconds of exclusivity to pick your stall. After which, the next person will be allowed to enter the selection floor area.

- You do not have to pick your stall before the next person enters, but that next person has an equal right to any available stall on that day’s layout.

STEP 3

When you have selected your stall, you must check out at the table on the far side with THE RECORDER. (Near Box 6)

NOTE: All transactions must be finished on the lottery day. (You may not pay for your stall later) You must process your transaction either at Box 6 or by way of a credit card form on days in which that option is available.
